Contents

NUMBER 1

- 1 Statement of Incoming Editors.
- 3 *H. G. Reading*. Fashions and models in sedimentology: a personal perspective.
- 11 *S. Flint*. Diagenesis of Tertiary playa sandstones of northern Chile; implications for Andean uplift and metallogeny.
- 31 *M. Sweeney, P. Turner and D. J. Vaughan*. The Marl Slate: a model for the precipitation of calcite, dolomite and sulphides in a newly formed anoxic sea.
- 49 *Drew A. Carey*. Sedimentological effects and palaeoecological implications of the tube-building polychaete *Lanice conchilega* Pallas.
- 67 *F. Khalaf, J. D. Milliman and E. M. Druffel*. Recent limestones in the nearshore environment off Kuwait, northern Arabian Gulf.
- 77 *Stephen K. Boss and W. David Liddell*. Patterns of sediment composition of Jamaican fringing reef facies.
- 89 *Signe-Line Roe*. Cross-strata and bedforms of probable transitional dune to upper-stage plane-bed origin from a Late Precambrian fluvial sandstone, northern Norway.
- 103 *John Shaw*. Glacial sedimentary processes and environmental reconstruction based on lithofacies.
- 117 *M. H. Hounslow*. Magnetic fabric characteristics of bioturbated wave-produced grain orientation in the Bridport–Yeovil Sands (Lower Jurassic) of southern England.
- 129 *Suzanne Reynolds*. A recent turbidity current event, Hueneme Fan, California: reconstruction of flow properties.
- 139 *H. Tsoar and K. Pye*. Dust transport and the question of desert loess formation.
- 155 *Dirk Goossens*. Interference phenomena between particle flattening and particle rounding in free vertical sedimentation.
- 169 *B. Martinez and F. Plana*. Quantitative X-ray diffraction of carbonate sediments: mineralogical analysis through fitting of Lorentzian profiles to diffraction peaks.
- 175 Forthcoming papers
- 177 IAS awards
- 187 Report of the General Secretary
- 188 Report of the Treasurer
- 190 Report of the Editors

NUMBER 2

- 193 *Nicholas Eyles, Bryan M. Clark and John J. Clague*. Coarse-grained sediment gravity flow facies in a large supraglacial lake
- 217 *Mike R. Leeder and Jan Alexander*. The origin and tectonic significance of asymmetrical meander-belts

- 227 *Gary G. Lash*. Longitudinal petrographic variations in a Middle Ordovician trench deposit, Central Appalachian orogen
- 237 *Aileen Wojtal Duc and Robert S. Tye*. Evolution and stratigraphy of a regressive barrier/backbarrier complex: Kiawah Island, South Carolina
- 253 *J. S. V. Reddering*. Subtidal occurrences of ladder-back ripples: their significance in palaeo-environmental reconstruction
- 259 *V. Paul Wright and R. C. L. Wilson*. A Terra Rossa-like paleosol complex from the Upper Jurassic of Portugal
- 275 *D. P. Johnson and M. J. Risk*. Fringing reef growth on a terrigenous mud foundation, Fantome Island, central Great Barrier reef, Australia
- 289 *J. E. Ungar and P. K. Haff*. Steady state saltation in air
- 301 *James E. Pizzuto*. Sediment diffusion during overbank flows
- 319 *Theodore Green*. The importance of double diffusion to the settling of suspended material

DISCUSSIONS AND REPLY

- 333 *George de V. Klein and Kathleen M. Marsaglia*. Hummocky cross-stratification, tropical hurricanes, and intense winter storms (Discussion)
- 338 *Donald P. Swift and Dag Nummedal*. Hummocky cross-stratification, tropical hurricanes, and intense winter storms (Discussion)
- 344 *William L. Duke*. Hummocky cross-stratification, tropical hurricanes, and intense winter storms (Reply)
- 361 Forthcoming papers

NUMBER 3

- 363 *Gregor P. Eberli*. Carbonate turbidite sequences in rift basins of the Jurassic Tethys Ocean (eastern Alps, Switzerland)
- 389 *Ivor A. J. MacCarthy*. Transgressive facies in the South Munster Basin, Ireland
- 423 *Donald J. P. Swift, Peter M. Hudelson, Robert L. Brenner and Peter Thompson*. Shelf construction in a foreland basin: storm beds, shelf sandbodies, and shelf-slope depositional sequences in the Upper Cretaceous Mesaverde Group, Book Cliffs, Utah
- 459 *J. L. McArthur*. The characteristics, classification and origin of late Pleistocene fan deposits in the Cass Basin, Canterbury, New Zealand
- 473 *A. Marshall McCabe, George F. Dardis and Patricia A. Hanvey*. Sedimentation at a late Pleistocene ice-lobe terminating in shallow marine environments, Dundalk Bay, eastern Ireland
- 495 *S. Manickam and L. Barbaroux*. Variations in the surface texture of suspended quartz grains in the Loire River; an SEM study

DISCUSSION

- 511 *Andrew Watson*. Variations in wind velocity and sand transport on the windward flanks of desert sand dunes
- 516 *N. Lancaster*. (Reply)
- 521 Book reviews
- 531 Forthcoming papers

NUMBER 4

- 533 *Robert L. Gawthorpe*. Burial dolomitization and porosity development in a mixed carbonate-clastic sequence: an example from the Bowland Basin, northern England
- 559 *Niels Oluf Jørgensen*. Oxygen and carbon isotope compositions of Upper Cretaceous chalk from the Danish sub-basin and the North Sea Central Graben
- 571 *Werner Ricken*. The carbonate compaction law: a new tool
- 585 *Christian Gaillard and Eric Jautee*. The use of burrows to detect compaction and sliding in fine-grained sediments: an example from the Cretaceous of S.E. France
- 595 *K.-C. Emeis, H.-H. Richnow and S. Kempe*. Travertine formation in Plitvice National Park, Yugoslavia: chemical versus biological control
- 611 *M. A. Bustillo and P. A. Ruiz-Ortiz*. Chert occurrences in carbonate turbidites: examples from the Upper Jurassic of the Betic Mountains (southern Spain)
- 623 *N. Molenaar and A. F. M. de Jong*. Authigenic quartz and albite in Devonian limestones: origin and significance
- 641 *David Soudry*. Ultra-fine structures and genesis of the Campanian Negev high-grade phosphorites (southern Israel)
- 661 *M. L. Porter*. Sedimentology of an ancient erg margin: the Lower Jurassic Aztec Sandstone, southern Nevada and southern California
- 681 *Jan H. van den Berg*. Bedform migration and bed-load transport in some rivers and tidal environments
- 699 *James D. Iverson, Ronald Greeley, John R. Marshall and James B. Pollack*. Aeolian saltation threshold: the effect of density ratio
- 707 *John McManus and Ali H. A. Alrasoul*. A numerical technique for analysing pebble-form variations, applied in Loch Earn, Scotland
- 715 *Sven Blomqvist and Kurt Boström*. Improved sampling of soft bottom sediments by combined box and piston coring
- 721 *A. Colella, P. L. de Boer and S. D. Nio*. Sedimentology of a marine intermontane Pleistocene Gilbert-type fan-delta complex in the Crati Basin, Calabria, southern Italy
- 737 Book reviews
- 747 Forthcoming papers

NUMBER 5

- 749 *Robin G. C. Bathurst*. Diagenetically enhanced bedding in argillaceous platform limestones: stratified cementation and selective compaction
- 779 *George R. Dix and Noel P. James*. Late Mississippian bryozoan/microbial build-ups on a drowned karst terrain: Port au Port Peninsula, western Newfoundland
- 795 *D. Emery, J. A. D. Dickson and P. C. Smalley*. The strontium isotopic composition and origin of burial cements in the Lincolnshire Limestone (Bajocian) of central Lincolnshire, England
- 807 *Jean-Marie Rouchy and Catherine Pierre*. Authigenic natroalunite in middle Miocene evaporites from the Gulf of Suez (Gemsa, Egypt)
- 813 *Mario Coniglio*. Biogenic chert in the Cow Head Group (Cambro-Ordovician), western Newfoundland

- 825 *Andrew D. Hughes and David Whitehead.* Glauconitization of detrital silica substrates in the Barton Formation (upper Eocene) of the Hampshire Basin, southern England
- 837 *Chris Buczynski and Henry S. Chafetz.* Siliciclastic grain breakage and displacement due to carbonate crystal growth: an example from the Lueders Formation (Permian) of north-central Texas, U.S.A.
- 845 *G. G. Ori and M. Roveri.* Geometries of Gilbert-type deltas and large channels in the Meteora Conglomerate, Meso-Hellenic basin (Oligo-Miocene), central Greece
- 861 *Mary R. Cudzil and Steven G. Driese.* Fluvial, tidal and storm sedimentation in the Chilhowee Group (Lower Cambrian), northeastern Tennessee, U.S.A.
- 885 *A. Murat and H. Got.* Middle and Late Quaternary depositional sequences and cycles in the eastern Mediterranean
- 901 *R. A. F. Cas and C. A. Landis.* A debris-flow deposit with multiple plug-flow channels and associated side accretion deposits
- 911 *James D. L. White and Cathy J. Busby-Spera.* Deep marine arc apron deposits and syndepositional magmatism in the Alisitos group at Punta Cono, Baja California, Mexico
- 929 *J. N. J. Visser and J. C. Loock.* Ice margin influence on glaciomarine sedimentation in the Permo-Carboniferous Dwyka Formation from the southwestern Karoo, South Africa
- 943 *Robert S. Anderson.* A theoretical model for aeolian impact ripples

DISCUSSION

- 957 *Paul A. Carling.* Pivoting analyses of the selective entrainment of sediments by shape and size with application to gravel threshold, by P. D. Komar and Z. Li
- 961 Forthcoming papers

NUMBER 6

- 963 *Hans J. Hofmann and Garth D. Jackson.* Proterozoic minitromatolites with radial-fibrous fabric
- 973 *Ian J. Fairchild and Baruch Spiro.* Petrological and isotopic implications of some contrasting Late Precambrian carbonates, NE Spitsbergen
- 991 *J. A. Beier.* Petrographic and geochemical analysis of caliche profiles in a Bahamian Pleistocene dune
- 999 *A. Gunatilaka, A. Saleh, A. Al-Temeemi and N. Nassar.* Calcium-poor dolomite from the sabkhas of Kuwait
- 1007 *Christopher G. St. C. Kendall and John Warren.* A review of the origin and setting of tepees and their associated fabrics
- 1029 *Susan Hovorka.* Depositional environments of marine-dominated bedded halite, Permian San Andres Formation, Texas
- 1055 *Reinhard Hesse.* Selective and reversible carbonate-silica replacements in Lower Cretaceous carbonate bearing turbidites of the Eastern Alps
- 1079 *Richard G. Bromley and A. A. Ekdale.* Mass transport in European chalk; fabric criteria for its recognition
- 1093 *Susan S. Nedell, David W. Anderson, Steven W. Squyres and F. Gordon Love.* Sedimentation in ice-covered Lake Hoare, Antarctica
- 1107 *Brian R. Turner and Mary Munro.* Channel formation and migration by mass-flow processes in the Lower Carboniferous fluvial Fell Sandstone Group, northeast England

- 1123 *A. H. F. Robertson*. Upper Cretaceous Muti Formation : transition of a Mesozoic carbonate platform to a foreland basin in the Oman Mountains
- 1143 *H. M. Pantin and M. R. Leeder*. Reverse flow in turbidity currents: the role of internal solitons
- 1157 *G. Govers*. Initiation of motion in overland flow
- 1165 *Paul D. Komar*. Selective gravel entrainment and the empirical evaluation of flow competence
- 1177 Book reviews
- 2001 Forthcoming papers
